## Assess adolescent personality

- Items are written at a fourth-grade reading level.
- Critical Items Form alerts you to issues that require immediate attention.
- All 22 scales are nonoverlapping and include validity, clinical, treatment consideration, and interpersonal scales comprising 264 items.
- The Profile Form contains a clinical skyline indicating the distribution of scores from a large sample of clinical cases, enabling clinicians to compare scores with those in the clinical sample.
- The PAI-A Software Portfolio provides comprehensive Clinical Interpretive Reports based on on-screen administration or hand-entry of raw scores.
- The PAI-A Professional Report Service features scannable answer sheets that are mailed to PAR for scoring.
- Administration and scoring are available 24/7 on PARiConnect. An Interpretive Report is also available.
