

CASE PRESENTATION OUTLINE:

• What is your clinical question or what specific feedback would you like from the group?

- Age:
- Gender:
- Living situation (if in care, what led to the placement?):

• Reason(s) for referral to you or your agency:

• Trauma(s) and when traumas occurred as identified on UCLA/standardized measure of trauma exposure:

• Results of standardized measure(s) of trauma symptoms:

• How were assessment results explained to caregivers/child and how were they received:

• Parental/Caregiver involvement:

• Share one approach that worked well for the PRACTICE components: (TF-CBT specific)

- Psychoeducation
- Parenting Skills
- Relaxation
- Affect Regulation
- Cognitive Coping
- Trauma Narrative Development
- In-Vivo Exposure
- Conjoint Sessions
- Enhancing Future Safety and Healthy Development

• How did you tailor the model or any of the components to fit with the individualized needs, culture, or interests of the child/family: (TF-CBT specific)

• What are you planning for your next step:

• Successes – what do you feel has gone really right with this case:

• Challenges
