

# BETTER FEATURES. BETTER FUTURES.

**Think about the incredible scale of the CAC movement.**

Every year, some 900 Children's Advocacy Centers serve hundreds of thousands of children, each with unique circumstances, challenges, and needs.

What if your Chapter could better understand the nuances of these cases, quickly access the collective knowledge of service providers across your state, and leverage a vast network of support to create better outcomes for the children you serve?

**Now you can.**

NCAtrak is proud to introduce a powerful new set of features designed to focus the full strength of the CAC community where you need it most.

# NEW TO NCATRAK

## Access information across jurisdictions

NCAttrak gives you the option to break down digital silos with secure access to a database without personally identifiable case information from participating CACs across your state.

## Design tailored searches and reports

When it comes to helping children, there's no time to waste. NCAttrak's precision query and reporting tool lets you find the exact information you need, right when you need it. With a few clicks, you can create dynamic statewide summaries of case data that help you tell your story in compelling ways.

## Customize dashboards for your chapter

Your Chapter's users can access personalized home screens that can visualize the real-time data they want to track, including the number of cases entered, services provided, and counties served.

## Send notifications and be heard

Have an important story to share? NCAttrak helps you amplify your voice and easily share information with your Chapter's members.

NCAttrak is the only case management tool  
by CACs, for CACs.
