

Ready to go? Our Mobile Solution is too!

Sometimes a victim is not able to come to your center. For those times, record important interviews with V2 Advocate’s Mobile Solution.

Record when your clients are available

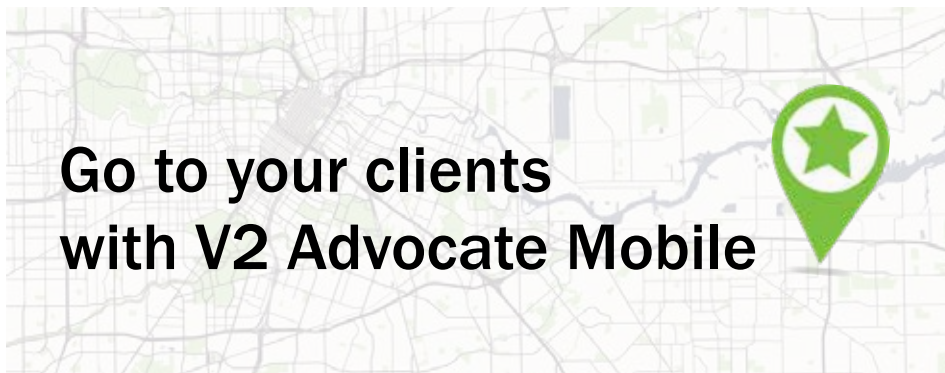

Securely record now, and then later share with your MDT just like you would with our standard on-site V2 Advocate Solution.

Record where your clients are

Mobile V2 units are ready to travel with interviewers to victims at hospitals, schools, juvenile centers or rural county areas – wherever is most convenient for victims and their non-offending caregivers to meet with you.

Set-up temporary interview and observation rooms

Off-site temporary interview and observation rooms are easily set up with wireless technology. V2 gives you the capability to securely send live interview feed to a temporary observation room. You can turn an off-site location’s conference room into your temporary observation room to allow your MDT to watch via secured WIFI. Post interview, recordings can be securely downloaded to the main system.

- ✓ Remote Start/Stop
- ✓ Records in High Definition (HD) IP
- ✓ Simultaneously records multiple rooms with multiple cameras
